PCS WIRELESS, INC. ANNOUNCES CELLULAR DISTRIBUTED ANTENNA ARRAY TRIAL WITH NORTHERN TELECOM

Vancouver, B.C. - May 26, 1995. PCS Wireless, Inc. is pleased to announce a distributed antenna array (DAA) trial using its new Cellular MEX (Microcell Extender). The trial, to begin in June at PCS Wireless in Vancouver, will use Northern Telecom microcellular equipment and will support dual-mode AMPS/TDMA handsets.

Guylain Roy, Director of Sales for PCS Wireless stated: "I am pleased by the participation of Northern Telecom in this initial trial. I firmly believe that our Cellular MEX will provide the most cost effective indoor coverage solution for both public and private microcellular networks." Due for release later in 1995, the Cellular MEX will be available for several standards including AMPS, TDMA, CDMA and GSM.

With installations in over 12 countries, PCS Wireless, Inc. is recognized worldwide as a leader in deploying wireless Distributed Antenna Array (DAA) telecommunications systems.
